

Bug Report – Automation Testing Saucedemo With Robot Framework

| Field | Detail |
|--------------------|---|
| Bug ID | BUG-001 |
| Title | User can access the checkout page even when the cart is empty |
| Bug Description | When the user has no items in the cart, the "Checkout" button remains active and allows access to the Checkout Information page |
| Environment | OS: Windows 11 Browser: Google Chrome Device: Laptop (Lenovo) Testing Tools: Robot Framework With Selenium Library Build Version: v1 |
| Reported By | Imron Taufiq Pramudya Jati |
| Severity | High |
| Priority | Medium |
| Steps to Reproduce | <ol style="list-style-type: none">1. Open https://www.saucedemo.com/v1/2. Log in with valid credentials3. Click the cart icon4. Ensure the cart is empty5. Click the "Checkout" button |
| Expected Result | The "Checkout" button should be disabled when the cart is empty |
| Actual Result | The user can still access the Checkout Information page even with an empty cart |
| Attachments |  |
| Additional Notes | <ul style="list-style-type: none">• This issue could lead to a poor user experience, as users may proceed to checkout without realizing their cart is empty.• Suggested Fix: Implement a validation check to disable the "Checkout" button when the cart is empty. |

Bug Report – Automation Testing Saucedemo With Robot Framework

| Field | Detail |
|--------------------|---|
| Bug ID | BUG-002 |
| Title | Users can complete the checkout process without any items in the cart |
| Bug Description | Users can complete the entire checkout process, reaching the Checkout Complete page, despite having no items in the cart |
| Environment | OS: Windows 11 Browser: Google Chrome Device: Laptop (Lenovo) Testing Tools: Robot Framework With Selenium Library Build Version: v1 |
| Reported By | Imron Taufiq Pramudya Jati |
| Severity | Critical |
| Priority | High |
| Steps to Reproduce | <ol style="list-style-type: none">1. Open https://www.saucedemo.com/v1/2. Log in with valid credentials3. Click the cart icon4. Ensure the cart is empty5. Click the "Checkout" button6. Fill in personal details on the Checkout Information page7. Click "Continue" to proceed to Checkout Overview8. Click "Finish" |
| Expected Result | The system should display an error message and prevent the user from proceeding with checkout |
| Actual Result | The user can complete the checkout process and reach the Checkout Complete page without any items in the cart |
| Attachments |  |
| Additional Notes | <ul style="list-style-type: none">• This is a critical issue, as it affects the core functionality of the e-commerce flow and may result in incorrect transactions.• Suggested Fix: Introduce a validation step that checks if the cart contains items before allowing users to proceed to Checkout Overview and Checkout Complete. |
